RECOsystems RECO LAM 322

Laminating machine for up to A3

The RECOsystems RECO LAM 322 is a very popular laminating machine for offices, government agencies, and schools. It has a ready time of only one minute after being switched on. It can laminate laminating pouches with a thickness of 2 x 75 up to 2 x 175 microns. Furthermore, the machine features a reverse function and anti-jam detection, so it automatically reverses if a potential paper jam is detected.

Technical data:

- Working width: A3 (330 mm)
- For pouches: 2 x 75 - 2 x 175 mic
- Speed: 600 mm/min
- Ready time: 1 min
- Reverse function
- Automatic switch off
- Automatic reverse (anti jam function)
- 4 rollers
- 1200 W
- 230V, 50 Hz
- Weight: 4,3 kg
- Size: 520x340x95 (h) mm
